INDEPENDENT AUDITOR'S REVIEW REPORT

Report on the Half-Year Financial Report

We have reviewed the accompanying consolidated half-year financial report of Coppermoly Limited, which comprises the statement of financial position as at 31 December 2010, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the disclosing entity and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the disclosing entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Coppermoly Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Coppermoly Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Coppermoly Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Emphasis of Matter Regarding Going Concern and Recoverability of Exploration and Evaluation Expenditure

Without qualifying our conclusion, we draw attention to the following matters:

As set out in Note 1, the half year financial report has been prepared on a going concern basis. The ability of the consolidated entity to maintain continuity of normal business activities and to pay its debts as and when they fall due is dependent upon the continued ability of the consolidated entity to raise capital and/or to successfully explore and subsequently exploit the consolidated entity's areas of interest.

The ultimate recoupment of costs carried forward for exploration and evaluation expenditure is dependent upon the successful development and commercial exploitation or sale of the respective areas of interest. Ultimate exploitation may depend on raising necessary funding.

No adjustments have been made to the half year financial report relating to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the consolidated entity be unable to raise funding as and when required and not continue as a going concern or the exploitation of the areas of interest not be successful.

NOTE 1. BASIS OF PREPARATION OF HALF-YEAR REPORT

This general purpose financial report for the interim half-year reporting period ended 31 December 2010 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2010 and any public announcements made by Coppermoly Ltd during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Company's 2010 Annual Financial Report for the financial year ended 30 June 2010, unless otherwise stated.

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to its operations and effective for the current annual reporting period. The adoption of these new and revised Standards and Interpretations did not have any material financial impact on the amounts recognised in the financial statements of the Group for the current or prior periods.

Going Concern

The financial statements have been prepared on the going concern basis. As at 31 December 2010 the Group had net assets of \$3,610,406 (30 June 2010: \$3,969,912) and continues to incur expenditure on its exploration tenements drawing on its cash balances. As at 31 December 2010 the Group had \$1,920,507 in cash and cash equivalents (30 June 2010: \$2,167,437). The ultimate recoupment of costs carried forward for exploration and evaluation is dependent upon the successful development and commercial exploitation or sale of the respective areas of interest. Ultimate exploitation through the development of mines will depend on raising necessary funding. The directors are of the opinion that they will be able to raise capital as and when required. Accordingly, no adjustments have been made to the financial report relating to the recoverability and classification of the asset carrying amounts or the amounts and classification of liabilities that might be necessary should the Group be unable to raise capital as and when required and the exploitation of the areas of interest not be successful or the Group not continue as a going concern.

NOTE 2. SEGMENT INFORMATION

(a) Description of segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources. Operating segments are determined on the basis of financial information reported to the Board which is at the consolidated entity level. Accordingly, the consolidated entity is treated as one operating segment.

Therefore, management identifies the Group as having only one reportable segment. The financial results from this reportable segment are equivalent to the financial statements of the consolidated entity as a whole. There have been no changes in the operating segments during the period.

NOTE 2. SEGMENT INFORMATION (Continued)

(b) Entity-wide disclosures

NOTE 4. MINERAL EXPLORATION AND EVALUATION EXPENDITURE

The ultimate recoupment of costs carried forward for exploration and evaluation is dependent upon the successful development and commercial exploitation or sale of the respective areas of interest.

The term of the Simuku Exploration Licence (EL 1077) has been extended for two years to 28 November 2011. Macmin NL's original application for EL1077 (Simuku) was lodged as agent for both itself and Mr William Stanley Yeaman (Yeaman). By two deeds of trust dated 5 June 1994 and 20 April 1996 respectively Yeaman was entitled to a 10% free carried interest (FCI) in the tenement. Upon the completion of a bankable feasibility study Yeaman could convert his FCI to either a 10% fully contributing joint venture interest or a 2% gross royalty interest payable in respect of all products mined from the Simuku property. During 2009, Coppermoly Limited acquired the 10% interest in Simuku from Yeaman for the consideration of 4,650,000 ordinary shares, 1,200,000 listed options and \$20,000 cash. As the fair value of the 10% interest in Simuku could not be estimated reliably, the issued ordinary shares and listed options to Yeaman have been valued using their fair value at the date the deeds were contracted. Yeaman's interest in Simuku has therefore now been extinguished and EL1077 is now held 100% by Coppermoly Limited.

The term of the Talelumas Exploration Licence (EL 1445) expired on 28 May 2010 and is currently subject to an application for renewal (lodged 26 February 2010).

The term of the Mt Nakru Exploration Licence (EL 1043) expired on 7 December 2010 and is currently subject to an application for renewal (lodged 10 September 2010).

The Group has fully complied with all licence requirements and has exceeded expenditure requirements. It therefore expects that the two licences will be renewed in the near future.

In October 2009 the Group signed a Letter Agreement with Barrick (PNG Exploration) Limited to sole fund AUD\$20 million to earn up to 72% interest in Coppermoly Limited's projects (Mt Nakru, Simuku and Talelumas) on the island of West New Britain in Papua New Guinea. Once Barrick has earned 72% equity, Coppermoly can elect that the payment of its share (28%) of ongoing costs incurred up to the production of a feasibility study will be delayed until that stage and will be repaid from 50% of its share of revenue. Total expenditure by Barrick (PNG Exploration) Limited to 31 December 2010 is AUD\$9,305,611.

During 2010 the group applied for an additional two tenements:

- ELA 1782 Powell was applied for on 10 February 2010
- ELA 1813 Fulleborn was applied for on 13 April 2010

The applications are pending approval.

NOTE 8. CONTINGENCIES

(i) The Macmin Royalty

By an agreement dated 12 June 2002 between Macmin NL, Macmin (PNG) Limited and New Guinea Gold Corporation (NGG Canada), NGG Canada indirectly acquired all rights, title and interests held by Macmin NL in respect of EL1043 (Nakru) and EL1077 (Simuku) through the purchase of all of the issued capital of Macmin (PNG) Limited (being a wholly owned subsidiary of Macmin NL).

Under the terms of the agreement NGG Canada granted a 1% net smelter return royalty (NSRR) in favour of Macmin NL payable in respect of all mineral products produced from the tenements upon being brought into production. This would be subject to legal opinions and negotiations should such circumstances come to bear.

In November 2008, Macmin Silver Ltd (formerly Macmin NL) had been placed into administration. In October 2009, Macmin Silver Ltd emerged from voluntary administration, however the rights to the 1% net smelter royalty are now attributable to the Creditors' Trust of Macmin Silver Ltd.
