

**ASX Announcement**

**Date: 14 April 2014**

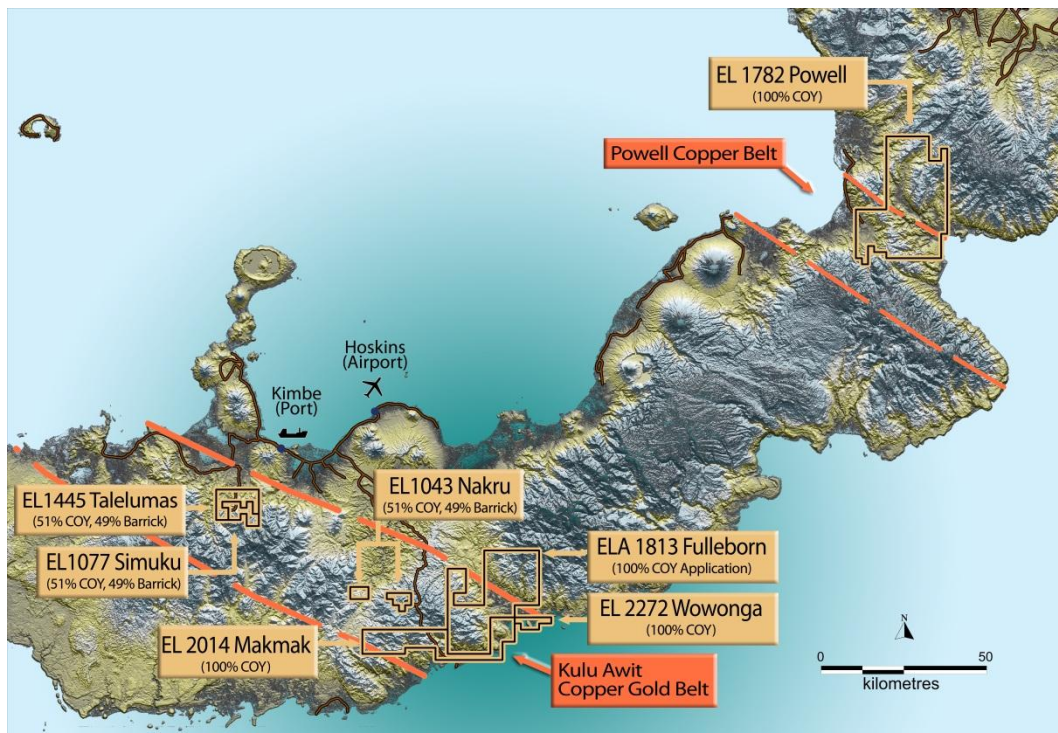

**ASX Code: COY**

**Grant of Wowonga Exploration Licence**

Coppermoly Ltd (ASX: COY) is pleased to announce that the Papua New Guinea Mineral Resources Authority has notified the Company that EL2272, Wowonga, has been granted for two years to 25 February 2016.

“We are pleased to have the Wowonga Exploration Licence granted.” said Managing Director Maurice Gannon.

“Wowonga is a small, greenfield Exploration Licence located on the south coast of West New Britain which neighbours Coppermoly’s Makmak exploration licence. We applied for the ground when we were evaluating the aeromagnetics for Makmak and we noticed an unusually pronounced anomaly on this coastal promontory. We believe that it warrants closer examination given the exceptional results we have obtained on our other tenements on the same regional trend.”

Maurice Gannon  
Managing Director

**About Coppermoly**

Coppermoly’s mineral exploration activities are focused entirely on the island of New Britain in PNG where it holds six exploration licences and an additional one under application. These licences cover copper, gold, silver, zinc, molybdenum and iron mineralisation. The six current tenements are Simuku, Talelumas, Nakru, Makmak, Powell, and Wowonga. The tenement application is Fulleborn.
